CICALA Light

Sand cleaning machine CICALA Light

Based on the CICALA sand cleaning machine with a 70 cm working width, we have developed the CICALA Light model with a 47 cm working width.

The CICALA Light shows its strengths, such as easy milling and excellent maneuverability, particularly in small and narrow sandpits with play equipment. The machine is equipped with a 5.8 HP Honda engine, which drives a hydraulic pump and two oil motors.

The hydrostatic drive means that important areas of the machine are wear-free and low-maintenance. Special features of the CICALA Light are: powerful pulling power, good handling, stepless forward and reverse travel, separate drives for driving and screening deck.

CICALA Light

Model CICALA Light

- 47 cm working width
- working depth approx. 0 - 18 cm
- work capacity approx.: 1.800 qm/h
- length: approx. 1900 mm, width: 650 mm, height 1000 mm
- weight approx.: 179 kg
- Motor Honda GP 200, 5,8 PS 4T Euro 2 with Hydrostatic
- stepless hydraulic forward and reverse drive
- incl. three step sieves (5x5 mm / 10x10 mm / 15x15 mm)
- all frame parts hot-dip galvanized and partly powder-coated
- incl. CE certificate, including operating instructions in English
- 2-year manufacturer's guarantee on spare parts, excl. wearing parts
